

Imagining Urban Futures in a Post-COVID World

This year the WC2 network is launching an interdisciplinary, collaborative and virtual project, inviting undergraduate students from participating universities of the network to join.

Participation in the project will provide students with the opportunity to:

- Expand global network and gain skills in online intercultural collaboration;
- Join a cross-university team with students from across the [network](#);
- Select a topic of interest based on the WC2 [themes](#) and develop a group project that will be presented to top academics in the field;
- Enrol in a RMIT micro-credential - [Working with Global Clients Online](#);
- Receive a WC2 Certificate of Participation;
- Participate in two workshops offered by [Common Purpose](#) as part of the program;
- Present (virtually or in person) at next year's WC2 conference, which we hope will be hosted by RMIT at their campus in Melbourne, Australia (for top selected projects).

- ✓ **Application Deadline: October 23rd, 2020**
- ✓ Team building begins at the beginning of November
- ✓ Final project completion scheduled for March 16th, 2021.
